

John James Earns Endorsement from Right to Life of Michigan PAC

Shelby Township, Mich. — John James, candidate for Governor of Michigan, today announced he has been endorsed by the Right to Life of Michigan Political Action Committee (RLM-PAC) ahead of the August 4, 2026 Republican primary.

The endorsement continues an unbroken record of support. RLM-PAC has backed John James in every campaign he has run, from his 2018 and 2020 U.S. Senate campaigns to his 2022 and 2024 races for Michigan's 10th Congressional District, and now in his run for Governor.

In Congress, James has compiled a consistent pro-life voting record, standing for the protection of human life and the dignity of the most vulnerable.

In its endorsement, RLM-PAC recognized James for his commitment to protecting human life, born and unborn, and to defending vulnerable populations across the state, including individuals with disabilities, those facing chronic or terminal illness, and the elderly.

"I am honored to once again have the support of Right to Life of Michigan," James said. "We must build a true culture of life that protects both mother and baby, while caring for the most vulnerable from the unborn to the elderly. This is a fundamental moral obligation. As Governor, I will defend the dignity of every life and make sure parents, not the government, stay at the center of their children's care."

RLM-PAC is one of Michigan's most established pro-life organizations, with a long record of advocacy on behalf of women, the unborn, and individuals who cannot speak for themselves.

"John James has demonstrated a clear and consistent pro-life commitment," said Amber Roseboom, President of Right to Life of Michigan. "We are proud to stand with candidates who will defend the protection of human life at every stage."

James is running to bring accountability, common sense, and servant leadership back to Lansing.
