Dingell Secures More Than \$45 Million in Health Funding for the University of Michigan

Washington, D.C. – Today, U.S. Congresswoman Debbie Dingell (D-MI-06) announced she has secured \$45,271,629 in federal grant funding for the University of Michigan at Ann Arbor to support a wide range of research initiatives, including aging, nursing, neurological, cancer, and more. The funding comes from the Department of Health and Human Services (HHS) and was made possible by Congresswoman Dingell's advocacy.

"This funding will bolster the University of Michigan's leadership in research and innovation," said Congresswoman Dingell. "These federal grants are a powerful tool in the health, safety, and well-being of our communities, and I am proud to have secured this money. I will never stop working to deliver federal resources to Michigan to support better treatments and improve patient outcomes."

Projects receiving funding include:

- \$2,401,493 for Diabetes Endocrinology and Metabolic Research
- \$1,097,482 for Heart and Vascular Diseases Research
- \$609,097 for Discovery and Applied Research for Technological Innovation in Human Health
- \$2,700,816 for Aging Research
- \$3,394,567 for Cancer Research
- \$2,199,878 for Research for Mothers and Children
- \$2,849,058 for Allergy Immunology and Transplantation Research
- \$553,631 for B - Cooperative Agreements
- \$616,719 for Biological Research Related to Deafness and Communicative Disorders
- \$4,688,085 for Biological Response to Environmental Health Hazards
- \$555,533 for Biomedical Research and Research Training
- \$1,325,195 for Clinical Research Related to Neurological Disorders
- \$609,097 for Discovery and Applied Research for Technological Innovation in Human Health
- \$11,050,452 for Drug Abuse and Addiction Research Programs
- \$1,757,617 for Extramural Research Programs in the Neurosciences and Neurological Disorders
