## **Anti-Voter Bill Passed in MI House is Dangerous and Unnecessary**

**Lansing, MI** - Following the passage of HB 4765 by the Michigan State House, Promote the Vote Advocates issued the following statement, attributed to **Shira Roza, Deputy Director of Promote the Vote Advocates**:

“This bill is a dangerous and unnecessary proposal. It would ultimately result in tens of thousands of eligible Michigan voters being unable to cast a ballot.

“The bill ignores the practical reality we live in. Millions of Michiganders do not have access to the necessary documents outlined in this proposal, such as a passport or birth certificate. Obtaining these documents is costly and time-consuming.

“Voting is a fundamental right. A constitutional guarantee. Not a paperwork test filled with red tape we know thousands of eligible Michiganders will fail to break through.”
